ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

Berlin, 24th.

It is generally believed the Czar of Russia has severely criticised the attitude assumed by Prince Battenberg of Bulgaria in the Turco-Roumelian difficulty. According to the same rumour it would appear Russia will not interfere, unless it be to aid Turkey in resuming her sovereignty over Roumelia.

Rome, 24th

The rigorous steps taken by the authorities to prevent the spreading of cholera have been the direct cause of risings in several districts in Sicily.

Much difficulty has been met with in restoring order.

Palermo, 25th.

Ninety fatal cases of cholera yesterday.

Madrid, 25th.

The Spanish Government have not officially accepted the mediation of his Holiness Leon XIII for the settlement of the Carolinas question. Everything leads to the belief that the question will be solved in favor of Spain.

PRESS TELEGRAMS.

Constantinople 23rd—The Adrianopolis railway have suspended traffic and are preparing to transport troops.

Philippopoli 23rd—Prince Alexander, who arrived here yesterday, has telegraphed to the Czar and asked him for his support.

London 23rd—Russia is inclined to accept an international conference to settle the Roumelian difficulty, provided Turkey take the initiative.

Austria will not compromise herself until the decision of the Porte be made known.

Berlin 23rd—It is stated the Powers do not view in a favorable light the violation of the Berlin treaty, and will side with Turkey. Thus, if Russia oppose Turkey, she will stand alone.

Constantinople 24th—The sublime Porte has sent a circular note to the European Powers, protesting against the conduct of Prince Alexander in heading the Roumelian revolt. The note also states that the Sultan will avail himself of the stipulations of the Berlin treaty which authorizes the Ottoman Government to resort to arms in the event of the internal security of Turkey being threatened.

London 24th—The island of Crete has risen against the authorities.

Constantinople 24th—The Russian Ambassador, Count Nelidoff, states that Russia had no participation in the Roumelian revolt. Nevertheless this statement is not generally believed, as it is thought Russia interpreted Sir H D Wolff's mission to the Porte as a precursory sign of an Anglo-Turkish alliance.

Excitement in Macedonia is great, and a rising is feared.

London, 24th—The Ottoman Government are anxious to procure funds for the transport of troops.

Constantinople, 24th—The Roumelians are destroying all the railways, and have cut the telegraphic wires. They also attempted to blow up a bridge but were foiled in their endeavor by the arrival of Turkish troops, with whom they fought for some time.

Turkish securities are falling rapidly.

London, 24th—Bismarck has accepted the explanations of Spain with reference to the recent insult to the German flag in Madrid.

Madrid, 24th—It is generally rumored that Germany will name His Holiness Leo XIII arbitrator to arrange the difficulties with Spain. Spain, it is stated, will also accept His Holiness as arbitrator.

Cabhul, 24th—Tree regiments armed with rifles, have left for Herat to reinforce that garrison.

Mexico, 26th—A considerable number of political prisoners, including several editors, have been sentenced to prison and fines.

Colon, 25th —The candidature of the Jefe de Policia to a vacancy in the Provincial Senate will be proclaimed shortly. This candidature is very favorably viewed by all.

Rochista Committees have been organized in Arroyo Grande and Palmar.

Great political excitement and animosity prevail in these districts.

Rosario, 25th—Don José Caminos, the Manager of the branch of the National Bank in the Esperanza Colony, leaves for B. Aires this evening.

The owner of the house occupied by the Normal School cannot collect his rents, so will lodge a complaint.

Great sensation has been created in the higher classes of society here by the elopement of a young lady with her cousin who is married. The police have received orders to capture the lovers. In the meantime the papers maintain the most perfect silence with regard to this affair.

The British steamer Ingram is unloading railway material at the Central Argentine mole.

Montevideo 25th—Caballero, the composer, had a brilliant benefit last night. Many of the best families in this city were present.

Telegrams from Paysandu report the death of David Sterling, one of the oldest estancieros in the country.

An official paper states that Government received the port contract yesterday evening from Dr. Amaro Carve.

The severest quarantine measures will be taken with regard to all Italian vessels.

Several papers criticize the steps taken by Government to prevent the sale of artificial wines.

All the papers cordially salute Dr. Victorica, the new Argentine Minister to this city.

The funeral of M. Salvador Ferrer, which took place to-day, was largely attended by the Spanish community.

Nothing new in political circles.

$40,000 m/c FOR A RAM.

The sale of an Argentine Negrette ram at public auction in this city for the stupendous price of $40,000 m/c is an event deserving of remark, and we congratulate Messrs F Chas & Sons. on the brilliant success that has attended their efforts as River Plate sheepfarmers.

Thirty years have now run over since Mr Chas first turned his attention to this business, and made his beginning with a few fine rams which he bought from the late Mr John Hannah, of Ranchos. In those early days of sheepfarming, Mr Hannah stood first in the ranks of sheep-breeders, and a near neighbour of the Chas estancia, Mr Stegman, ranked next. It might be both amusing and instructive to follow the list of renowned ram breeders in that epoch, but we may safely state that if the mantle of Sheridan fell on Hannah that of Hannah has unmistakeably fallen on Chas, and precisely as Hannah was preeminently the great ram breeder of 1855 and 1856, so also is Chas the very first in the ranks of 1885.

Mr. Chas has this also to be said in his favour, that whereas in 1855, Hannah had scarcely half a dozen ram breeders to contend with, he, Mr. Chas, has hundreds, and we may say thousands who have turned their estancias into 'cabañas,' and breed rams with the same aim but not the same success.

In the year 1859 or 1860, the late Mr Peter Healy paid 25,000 $m/c for a ram, and the price paid seemed so high that many people believed Don Pedro had lost his senses. The matter got into the newspapers of the period, and was so much commented on that Mr Healy became as great a celebrity as Dardo Rocha or Juarez Celman to-day, and since then the business of ram breeding became so extensive, and pure blood animals were so freely imported that auctioneers and their clerks handled more rams than the sheepfarmers, and millions and millions have been remitted to Europe to pay for the blood stock imported.

For years we have maintained that the day would come when we should produce better Argentine Negrette and Rambouillet rams than anything imported from Europe; and we are much indebted to Messrs. Chas for establishing this fact, since the sale which is now the subject of remark proves it.

It is well, indeed, for the fortunes of the River Plate that the business of ram-breeding has fallen into the hands of men so eminently capable to reach success as the Messrs. Chas, who have spared no expense, no exertion, no effort to make their rams the finest in the country. Men of less intelligence loss capital, less energy, have tried for years and but partially succeeded; but the Messrs. Chas have toiled for 30 years, investing a colossal fortune in a cause which at last has proved triumphant, and we cannot exaggerate the merit of such services when we consider the almost national importance of their success.

The example which the Messrs. Chas set their countrymen by devoting their time, their energies, and their capital to the improvement of the breed of sheep, is possibly a more important gain to the country than the now admitted fact, they have established, that the Plate can breed as good rams as the very best produced in Europe. Good example is more needed in this than in other countries, owing to the ease of life, manners, customs, etc. Our Government houses are crowded with intelligent young men of sufficient means to start in the camp, did they have the will and energy and pluck to work as the Messrs. Chas have done. The professions and clerkships are constantly recruited from some of the richest and best families in town, when under other and more favoured circumstances these young men might be directing establishments of their own, enriching not only themselves, but their country, by their enterprise and industry.

We want more of the Chas men amongst us, and this splendid success which they have realized may induce others of equal means to follow in the "senda" and reach the same success in the breed of horses and cows. The country is one of the most fertile under the sun, the climate is genial, the pasturages are magnificent, every thing favors the breeder of prize stock; all that is needed is a little capital, great method, and much energy of purpose. We believe the day is not far distant when we shall produce as good horses as are to be found in Europe, and the refinement in our breed of cows is now becoming so general that soon a pure "criolla" cow will be as scarce in the camps of Buenos Ayres, as a pure "criolla" sheep.

Therefore it is that we always take such a great interest in the auctioneers' sales of prize cattle and sheep, and it is always a pleasant sight to see Calle Alsina blocked up with English bulls, just landed from the steamer, at Bullrich's; the more we spend on such importations the richer we are. The more commissions Bullrich makes, the sooner 'curso forzoso' will be over. 40,000 $m/c for an Argentine ram, and 20,000 $m/n for a league of good estancia land are certainly River Plate anomalies, but we live, and thrive, and grow rich on such anomalies, and perhaps the greatest of all anomalies in this most anomalous country is, that Mr Chas, of Calle Florida, is the best sheepfarmer in the whole River Plate.

STATES ISLAND.

THE VERNET CLAIM.

The debate in the National Senate on the claim of Mr. Luis Vernet for compensation for States Island, which was given to his deceased father by Government in 1828, was most interesting. It was so monstrously long, however, that we can only give a diluted precis of it. The Bill proposes to give Mr. V. twenty leagues in the Chaco for the island, and we are happy to say has passed, as Mr Vernet's heirs wel deserve this long delayed compensation.

Senator Gelabert first "asked the word," and got it: He said the heirs of Don Luis Vernet, who was Gefe Politico of the Falkland Islands, claimed States Island in 1878 from Congress. It had been given away by the Legislature to Captain Piedrabuena although Mr. Vernet had spent 207,728 pats in establishing a colony of Soledad Island. The colony was first started in 1823, and the deceased Mr. Vernet asked and obtained it for his property in 1828, thus acquiring the right his heirs now seek to enforce. The Committee have examined his titles, and find them good. He was deprived of his property solely through an abuse of force by a foreign Power. The occupation by violence of the Falklands caused the total abandonment of the colony, and, when the aggressors in turn left it, a British ship seized it, and it has been in England's powerful grasp ever since. Captain Duncan's aggression caused immense loss to this Republic, and deprived the father of a large family of the great fortune the colony would have yielded him. The loss to him was caused by his obeying the orders of the Buenos Ayres Government, which then represented the whole Republic abroad. The fact that the Custom House of Buenos Ayres paid the cost of the administration of the Falklands, and that the Spaniards had troops there till 1810, proves the right of this country to the islands.

In 1879, when it was proposed to colonise States Island, the Vernets claimed under the law of 1868. The Senate kept the case hanging on till 1882, and threw it out, on the ground that "in forty years their rights had lapsed." The Senate Committee seem to have ignored the losses suffered. Mr. Vernet lost a large capital by obeying the orders of the Buenos Aires Government, which afterwards made a claim against the United States for the destruction of Argentine property by its vessels of war. It also claimed the Falklands from England and still holds to that claim. The heirs consider all these facts as proofs of their claim.

Senator Gelebert.—It's all nonsense for the Senate to ignore the claim of the Buenos Aires Government to act for the nation. Did it not declare war against Brazil, as representing the sovereignty of the other States?

In face of the difficulties of the Law of 1868, the heirs now simply ask for compensation for the very small part represented by States Island; which is about 20 leagues square, of great fertility. The right of the Buenos Ayres Government to exercise jurisdiction there is quite clear. In December 1823 it gave George Pacheco 30 leagues on States Island, for important services to the "patria," not to the province. Pacheco took Vernet into partnership, and they fitted out two brigantines to take down their horses, and also a schooner for fishing purposes. Pacheco was cowed by the losses, and he sold his share and the 30 leagues to Vernet, who pushed on the enterprise, and in 1829 fitted out six vessels. He kept six fishing establishments going, and started saw mills on Soledad and States Islands. He then petitioned for all the waste lands on the two islands, on condition of forming a colony. Government accepted, and decreed them to him on January 8th 1828, reserving 10 leagues on each isle, San Carlos Bay and Pacheco's 30 leagues deducted. Vernet contracted for agricultural families in Europe and the U. States, and the colony was formed in 1829. Vernet was named Gefe Politico and Military Commander of the Falklands and the adjacent isles to Cape Horn. In 1831 Commander Vernet seized and brought in person to Buenos Ayres three American barques that had repeatedly infringed the law. He did all this with his own resources, as the Government had never given him even a rowboat, much less a single soldier to enforce the law. Government approved what he had done, and the courts declared the barques and their cargoes legally seized. But meanwhile Captain Silas Duncan, of the U. State corvette Livingstone, sailed from this port for the Falklands, seized them, and destroyed the whole colony root and branch; including the beef and fish salting factories from which exports were going on to London, Brazil and the United States.

Poor Vernet was ruined. The Government made a claim against the United States, but it is still unsettled. Fitzroy says, in his "Voyage of Adventures":—"This act (the seizure of the American ships) brought down on Vernet and his colony the ire of Captain Duncan, of the corvette Livingston, who sailed from the Plate without any orders from his government, seized the Falklands, arrested many inoffensive colonists, and destroyed their properties in the most scandalous manner.

The bill after observations from Sr. Cello was put to the vote and carried "en general."

THE GONZALEZ RAILWAY.

The debate on Dr. Lucas Gonzalez's railway bill continues in Congress and will form the most interesting chapter of the Session. The discussion yesterday was on article 8th, which provides that the Government deliver to Mrs. Gonzalez and Co. 6 per cent. bonds at 91 per cent., or 5 per cent at a proportional figure 75, 83 per cent. Deputy Paz proposed that the 5 per cent bonds be delivered at a fixed figure of 80 per cent, the emission to be nominal 12 millions. Deputy Lainez attached more importance to the price paid per kilom. by the Government than the rate at which the bonds are issued. The bonds issued under this law are very different from those of any other law; they are debentures or mortgage bonds on the works to be constructed, and whilst being constructed they will be deposited in the hands of a London banker, to be named by the Government, and article 15 of this law provides

The railway and its net earnings are specially pledged to the payment of these bonds and their service, and in case of deficit the Government to make good the amount from the General Revenue.

Here then we have the general revenue as subsidiary to the receipts of the railway, and Congress has never before voted bonds on such terms. The 30 million loan was voted on the following guarantee:—

"The service of these bonds to be attended to from the general revenue, and with the special guarantee of the works, which they are to construct; and I will now call your attention to the Entre Riano loan; the bonds were issued years ago by the House of Murrieta, at under 92, and now, they are 107, and simply because they are mortgage bonds. The Buenos Ayres Railway bonds are worth 108. This proves the difference in these bonds, and I would ask Dr. Gonzalez if he would not conclude the works and take in payment the balance of the 30 million loan? The error lies in regarding these new bonds in the same category as those of the 30 million loan; we should leave Government to arrange with contractors the rate at which they will the be emitted. I do not believe the Government will throw these new bonds into the street, but will make the best terms with the contractors."

After a prolonged debate Article 8 was passed as follows:—

The rate which these 5 per cent foreign bonds and 1 per cent amortization shall be paid to the contractor is 80 per cent of their nominal value, which shall be received firm by the contractors.

After a slight discussion Art. 9 was passed as follows:—

The Government shall fix the amount, form and time for delivery of the bonds to the bankers of the contractors as they and the syndicate shall elect. The expenses of printing, etc., to be paid by Government and the commission on issuing to be paid by contractors. The bonds to be in pounds sterling and the General Bond to be signed by the representative of the Government in the usual form.

All the subsequent articles up to 17 were then passed. Messrs. Lainez and Paz opposed Art. 17 which provided that if the bonds were issued at 4 per cent over the Government price the half of the excess to be paid to the Government. Dr. Gallo explained that in this business there are two parties, first the contractors, second the Syndicate, and if the bonds were issued by the Government at 80 with the commission of 2½, they would stand the contractors in 82½.

The contractors made nothing by any advance in the price; their profit would be in the construction, and we should leave the bankers the chance they may have of making anything over 82½. Dr. Paz remarked that there were two parties making money out of the business, the contractors and the bankers.

Article 17 was then voted, and it was decided in favor of the committee by the casting vote of the President of the Deputies; and now ensued a most unparliamentary scene, many of the Deputies protesting that they did not understand how the question was put or voted, and the house was literally in the dark, as the gas nearly went out.

Finally, after a most inexplicable uproar, the President announced that the amendments proposed to Art. 17 by Messrs. Lainez and Paz were lost.

Art. 18 was then read and, after a slight discussion, passed.

The house then rose.

THE ENGLISH LITERARY SOCIETY.

HALF-YEARLY GENERAL MEETING.

The half-yearly general meeting of the members of this Society was held in the Hotel Anchorena, on the 23rd of September. Professor Pressinger (the President), occupied the chair, and was supported by Professor Martin (Vice-President), Dr. Mackern, Professor Munro, Messrs. C. McKean, B. Dreyfus, C. T. Raynes, J. D. Grimsditch, Mr. P. Warden (Hon. Secretary), and some 40 members attended.

The Hon. Secretary having read the notice calling the meeting,

Mr. W. Hutchison then rose to move the adoption of the Report for the past year, which, he said, he had very great pleasure in doing, considering the highly satisfactory state of affairs it reflected. Mr. Hutchison, in an able speech, reviewed the work done by the committee during 1884-85, and considered the Society could not sufficiently thank that body for the ability it had shown in the administration of affairs and the caretaking of the Society's interests. The increase of 65 in the list of members was a most gratifying feature, and referring to the financial statement, Mr. Hutchison was, indeed, astonished to find that the excellent entertainments which the committee had provided cost $345 c/l less than those of last year. This was a most important feature, and augured well for the future, as a decided evidence of popularity and support. Mr. Hutchison concluded by a reference to the retirement of Mr. Seedorff from the Hon. Treasurership. This post was one which entailed great sacrifice of time and much trouble, and Mr. Seedorff had filled it most ably. His retirement was a matter of deep regret, but Mr. Hutchison trusted some day to see that Mr. Seedorff's health would again permit him to take an active part in the Society's affairs. Mr. Hutchison then proposed that, in recognition of Mr. Seedorff's valued services, during nearly ten years, some mark of appreciation and esteem should be extended to him on his retirement, and that an engrossed scroll be prepared and signed by the committee, and as many members as possible.

Dr. Hiron, in an eloquent speech, having seconded Mr. Hutchison's motion, and coincided in the remarks that gentleman had made, asked for information regarding some matters of detail in the Report, which he, as a non double-entry man, did not quite follow. Dr. Hiron much regretted the absence of Mr. Walter Ferris Biggs (the Hon. Librarian), who was not in his place at the committee-table. Dr. Hiron then moved that the sum of $1,000 c/l be transferred from the cash balance at the Society's bankers to the Building Fund.

This was seconded by Professor Munro (Acting Hon. Treasurer), and carried by a large majority.

Dr. Mackern then rose to second the motion of Mr. Hutchison, in reference to Mr. Seedorff, whose devoted services the committee unanimously recognised and felt. He said no one regretted more than he did the loss the Society sustained by Mr. Seedorff's retirement, but, it was to be hoped, some day he might again take part in the management. Dr. Mackern, speaking for his colleagues and himself, thought a handsome portrait of Mr. Seedorff should be placed on the walls of the rooms, a proposal which was received with cheers. This, Dr. Mackern thought, would give a faithful and lasting representation of their old friend and bear him in the memory of the members.

This was agreed to amid much demonstration of warm feeling.

A discussion then ensued on the question of erecting a building for the society, in which Dr. Mackern, Mr. Hutchison, Dr. Hiron, and Professors Pressinger and Munro took part, and ultimately the committee were fully authorized to purchase a suitable site in the centre of the town.

Mr. Pearson warmly congratulated the committee on the high-class entertainments given, due in a great part to the able management and judgment of Mr. Cecil McKean, who now, he regretted, retired from that department. Mr. Pearson proposed a hearty vote of thanks to Mr. McKean, which was carried amid cheers.

A similar vote of thanks was accorded to the President and members of the Committee.

The following gentlemen were elected members of the Committee of Management:—

Messrs. M. L. Munro, Duncan M. Munro, J. A. Bennet, H. Herbert Crabtree and Benny Dreyfus.

The Committee now consists of Professors Pressinger, Martin, and Munro, Dr. Mackern, M.D., Messrs. Biggs, D. M. Munro, J. A. Bennet, B. Dreyfus, H. Crabtree, C. T. Raynes, J. D. Grimsditch and W. P. Warden.

The papers are full of unnecessarily long details about a trifling swindle on the English Bank, which can be put into three lines: A Portuguese deadbeat named Perez stole the Bank-book and baptismal certificate of an honest "changador" named Guerrero He drew the money (700 Nats) and spent some of it; but the police cut him short; Guerrero gets back his money, and the bank has only to make good the few dollars the thief spent.

PARIS LETTER.

(*From our own Correspondent.*)

Paris, August 20th.

The Franco-German war-cloud has reappeared. Happily the press of both countries have it in charge, and the barking is not likely to end in biting. The war of revenge is not yet where the fate of two nations must be decided. Like all fictions, the love between the Teuton and the Gaul had only the existence of the rose—the space of a morning. Rochefort, with his ferocious bluntness that points out the ill-humor of Germany arrives at the right moment, to show the electors what an abyss the country has been led up to by the colonial policy pursued by Ferry, at the instigation of Bismarck—the organization of the home army, compromised by contingents drafted to Tonkin, Tunisia, Madagascar etc; the navy, used up after the Chinese 'reprisals,' and the finances of the country more than strained. Hence Germany's shaking the rod at France gives the death-blow to Jules Ferry and his party at the general elections.

The hegemony of France, as understood by Louis XIV. and Napoleon I, meant the domination of Europe. Bismarck limits the hegemony of the empire to Germany proper. Only two powers can thwart him, Russia and France. It is quite possible that after setting the nations at loggerheads, to secure his ideal of European peace, he has now made up his mind to a serious "marriage de raison" with England. The bride can bring a richer *dot* than la belle France, and she could better aid to keep Russia circumspect. As England urged France not to go into the colonial business till she had emigrants and made cheap goods, she ought to note the sagacity of that counsel; then if Bismarck intends to flirt with John Bull, the Republic ought not to be jealous at the jilting. Coquettes vary, as Francois I asserted did the most attached ladies.

"Hic jacet" is now the epitaph over the Chamber of Deputies elected in 1881. No one will throw rice after it, the emblem of reproduction, for fear its likeness might reappear. The republic has not gained in glory by the defunct Parliament, which was not an assembly of legislators, but of second rate vestrymen without cohesion, consistency, distinct aims or sustained courage. During its existence it has had three Presidents; it has voted five budgets; it has manufactured seven Cabinets. It now rests for the sovereign people to be no longer led by the nose, or paralysed by windbagism; but to exercise its native judgment and send new Solons, worthy of the republic and still more worthy of France and her 36 millions of inhabitants, among the most industrious and easily governed nations of the universe.

England in her foreign policy continues to be regarded as rapidly getting on the right rails again. This is due to speaking plainly, plain speaking without bombast, and to a calm resolve to abide by a fixed policy. She is admitted to be right not to evacuate Egypt till she has made straight all that is there crooked; and to make friends of the mammon of unrighteousness with those whose interests are kindred with her own. She is considered to have already cornered the Muscovite. The Treaty of Berlin compelled Russia to let go her grip on Constantinople; by England's solidly advancing her war material Afghan wards, and helping the Ameer's mountaineers with scientific and tactical knowledge to supplement their dashing courage, she can hold all the Zulficar passes she pleases, extinguish Russian cajolery and Balkan tricks, while re-making Herat the commercial Queen of Central Asia, and its valleys the milch cow of Northern India.

Arrangements have been satisfactorily made for the celebration of mortuary services, as a tribute to General Grants' memory, by the American colony of Paris. The English manifest a Westminster Abbey sympathy with Grants' family and the nation that claims his fame. Scenes like what we witness, bring families closer, and knit them together as one. "Esto perpetua!

M de Lareleye is a traveller always agreeable to follow; he writes from Bosnia, where the women wear only a hempen chemise for all toilette, when working in the fields; and lower down the Danube this robe becomes beautifully less. In voyaging in Bosnia, you must bring your own saddle, the people being too poor to supply them, but will furnish you with a horse for 2 fr. a day. As the hotels have no furniture, you must bring your own shakedown, and as the Government does not undertake to protect you, it is on your own weapons you must rely. It is sad to think; the local peasantry never cursed, told lies, drank, or ran into debt, till they came in contract with civilised Europeans. Where you can obtain a meal, the prices still recall the primitive age; soon, they will run up to a ransom—as in Paris. As the poor have no windows in their cabins, they can dispense with glass. When the shutters are put on the door, you have to decide between darkness and cold. In some parts of France, the peasants always go to bed at sun-set, to economise candle-light. The cabins also, have no chimneys, the slits in the wooden roof dispense with such.

Pelugie Bouard, aged 17, and a dressmaker, has been sentenced at the assizes of Vendee, to transportation for twenty years. She is pretty, and not feeling pleased at her father refusing to allow her to keep company with young men, she way-laid him one night, and with a piece of wood knocked his brains out. Her little brother, aged nine, witnessed the whole scene; he peached, and his sister confessed.

A new Company, the Express, was founded to run penny boats on the Seine. About 40 of the vessels were to be delivered in May last, with iron pontoon landing stages; three of the boats were delivered only in time, but refused as defective. The steamers are now lying tied to the landings, till the law decides what is to be done with the fleet.

The cholera has not yet been officially recognised as existing in Marseilles, but it is none the less there, in a mitigated form. As rain has set in perhaps the disease may not spread. Spain has taken time by the forelock by placing ships from that port in quarantine. No doubt Señor concludes, he has enough in his own cholera, without importing that of France.

The coming elections cause no stir: indeed people are sick of politics; they desire to make money, to have confidence restored, and business to become a joy for ever.

Perhaps it is the hard times that have suggested the new whet for appetite; the favorite preparation for a dinner, is a slender slice of cheese on bread and butter. It is a Swedish fashion in any case.

The Egyptians had cats we know at their festivals, to do duty for dinner bands. In this age of strange music, the strangest concert ever organised, was that to please Louis XI. The Abbé de Baigne, "a maniac of genius," composed an opera; it was executed by pigs of different ages, ranged in a row beneath a plank, with stops to fall on their heads, piano-like, when touched. He was thus able to secure harmonious squeaking.

The planting of trees of liberty was imported from America; the first planted in France was in 1782, at Franconville, twelve miles from Paris, by Comte d'Albon, in memory of the American revolution. Fragments of that tree are offered for sale.

A tradesman, whose wife quited him, and, wedding her paramour, sailed for foreign parts, has closed his shop, putting this notice on the shutters: 'closed, for cause of bigamy."

GUALEGUAYCHU RACES.

September 22nd 1885

To the Editor of the STANDARD.

Dear Sir,

As I have never seen any reference in THE STANDARD to this Jockey Club and its meetings, which date from the year 1868, when it was first established here, I enclose you a programme of the races to take place on the 27th inst., when the first horses in Entre Rios will run, and any Buenos Ayres friends will be gladly welcome.

This club is entirely supported by private subscriptions, has ground of its own with Grand Stand, and every convenience for racing.

I enclose my card and remain

Yours truly

Gualeguaychu.

EDITOR'S TABLE.

Yesterday at ½ past 3 o'clock Dr. Pellegrini landed on the mole-head, accompanied by those gentlemen who went down to Montevideo, and met by an increased circle of friends who crowded on the mole to welcome him back. Dr Pellegrini never looked better in all his life, and, to judge by his countenance, we should say that the loan business is all right.

The new American Minister, with his family, is expected up this morning, and the Port Captain sends out his falua de Gala to bring H. E. on shore. Four nuns from Paris for the Sacred Heart Convent Calle Rio Bamba, also come ashore this morning, Mesdames, Nagle, Power, Galbraith, and Maxwell; the port Captain kindly lends his falua to bring these ladies ashore. *Many* friends go out to welcome them back to the Plate.

To-morrow the greatest political demonstration ever got up in this intensely political country, will take place, on the occasion of proclaiming Dr. Dardo Rocha as candidate for the future Presidency. Every possible arrangement has been made to preserve the strictest order. The following is the list of delegates from the Provinces, who will walk in the procession:—

Cordoba—Heraclio Ramon, Julio Cordeiro, Emilio Lascano, Pedro Molina.

Santiago—J. M. Gorostiaga, Manuel Argañaráz, José M. Corvalan.

Catamarca—Victor Mauvecin, Ramon Gil Moreno, Javier Diaz.

Rioja—Senador Dávila, Nicolás Cazon, comandante Bernabé Martinez.

Tucuman—Dr. D. Tiburcio Padilla, Rodolfo Ovejero, Rodolfo Guirazú.

Salta—Dr Angel M. Ovejero, Felix M. Saravia.

Jujuy—Segundo Linares.

San Luis—Victor C. Lucero, Juan A. Ortiz Estrada, Julio Ruiz Moreno, Dr. Juan C. Ojeda, Gabriel Arce.

Mendoza—Nicolas A. Villanueva, Dr. Ignacio Bombal, Dr. Matias Godoy.

Uruguay—Juan J. Urquiza, Benito Perez, Dr. Francisco Quesada.

Gualeguay—Nicanor Pico.

Gualeguaychu — Policarpo Labruy, Dr. Belisario Ruiz.

Concordia—Fernando Mendez, Floro Oliver.

Paraná—Enrique Verdue, Dr. Luis Leguizamon.

La Paz—Antonio Basualdo.

Tata—Luis E. Caminos.

Victoria—Juan M. Febre.

Corrientes—ExGobernador Gallino.

Rosario—Mariano Cabal.

San Juan—José P. Cortines, José Tomás Albarracin, Domingo Moron.

Tala—Ruperto Aceval, Luis Perez Gonzalez.

As for the list of delegates from the different district of Buenos Ayres their name is legion, and we have no room for the list.

Advices received to-day from Europe announce that Mr Nordenholtz, former German Consul here, may be expected out in the middle of November. He comes to visit his splendid estancia in Santa Fé. Mr Nordenholtz has a host of friends here who welcome him back to the Plate.

To-morrow Messrs Bullrich & Co. hold a great auction of splendid prize live stock at Mr Casares famed estancia in Canuelas. Neat pamphlets of the sale were given round yesterday, and, as Mr Casares is renowned for the excellence of his stock, we have no doubt, everything will sell well; in fact, had we the money we would buy up the whole lot for our own account.

We have just received a copy of the programme of Mr. Denstone's entertainment for next Wednesday, and can certify to its being a most attractive one. Madame Carlani, Prima Donna well-known in French circles will sing three songs, Mr. Wilson, a Baritone of merit, Prof. Roig a well-known flautist, and Prof. Bonanini, pianist, will also take part. Mr. Denstone himself will appear in several selections, some to be given in character, including a dramatic monologue that promises to be highly interesting, called "The Miser's Fate." To those who know the gentleman's powers in this style of entertainment, the letter announcement alone should be sufficient to induce them to attend.

In another column will be found the programme of the Buenos Ayres Rowing Club for their annual Regatta, to take place at the Tigre on Wednesday, November 11th.

The new tenor Arrighi took the public by storm on Thursday night as Maurico in Trovatore, at the Colon Theatre. He sang "di quella pira" in a way that Tamagno could not beat, and was rapturously recalled four times. He is a much more artistic singer than the too-vaunted Tamagno. The orchestra is magnificent; far better than Ferrari's. The town is overflowing with fiddlers and musicians of all kinds looking for engagements.

"Sin Rumbo" is the wail of the Bears and the pessimists about the National finances, and we are greatly afraid they are perfectly right. The only 'rumbo' seems to be to spend money, and then get it, if you can. Now that Pellgrini has come back, if the finances don't get into a proper 'rumbo' it will be a rum thing, and the country will be done for. We highly applaud the *Prensa's* article yesterday on Argentine credit. "It's an ill bird that fouls its own nest."

The cablegrams from Europe are blazing. It will

NOTICE.

Parents and Guardians intending to enrol children at this School, are requested to do so AT ONCE; as no more DAY-PUPILS can be received for this Session AFTER THE END OF THIS MONTH nor any more BOARDERS after the few remaining vacancies are filled up, the chool being already full.

Teaching-Staff

The Staff, which is now completed, consists of the following; and, as will be seen by the qualifications appended is, perhaps the best working-staff to be found in any private school, Native or Foreign, in the Argentine Republic.

I—Rector, A.Watson Hutton, M.A., F.E.I.S. Master of Arts ("Honours" in Philosophy, Edinburgh University); Fellow of the Educational Institute of Scotland, First Prize Essayist (Educational Subjects) Edinburgh University, Session 1870-80; and, for more than eight years one of the Masters of George Watson' College, Edinburgh.

II—Lady-Superintendent, Mrs. Hutton, Government Certificated Teacher; 'Queen's Scholar' of the Normal Training College, Edinburgh; and for more than seven years Chief Lady-Teacher in George Watson's College, Edinburgh.

III—Spanish, French &c. Master, M. Edmund Reydams, "Gradué en Lettres," Brussels University.

IV—Elementary Mistress and General Assistant, Miss E C Waters, Government Certificated Teacher, for over eight years one of the Teachers in George Heriot's Out-door Schools Edinburgh; and lately in Viscountess Keith's School, Kincardine-on-Forth.

V—Music Teacher, Miss M A Russell, lately of the Ladies' College, Edinburgh, where for the last ten years she has been teaching the Piano and the Harmonium in co-operation with Professor F W Bridgman, the leading Music Master in Scotland.

VI—Drill Sergeant and Gymnastic Master, Mr Wm. G. Water, lately of the First Edinburgh Rifles, and Cowan's Gymnasium, Edinburgh.

Prospectuses with full particulars on application.

EDITOR'S TABLE

(Continued from 1st page)

The usual Spring leaders about the city health are appearing in the papers. Great stress is laid this year on the very bad quality of the meat. This is a fact that a stroll through any of the markets will verify. Most of the meat hanging up is black and repulsive; all due to the cruel and dangerous practice of killing the beasts when they are tired and starving. The Zoophiles, now that Congress has taken them up, should tackle this abuse.

Next Wednesday will be the last day for enrolment in the National Guard, under pain of loss of civil rights.

Editorial Sanctum,—Enter comic party: "England seems to be doing a Russian business just now." Then a deep silence fell upon the scene, and by degrees the editor began to realise that a pun had been perpetrated in his presence.

The Bateman contract business is settled by being extended to July next. Mr. B receiving 8000 Nats per month on account of his commission, instead of $16,000 as formerly.

The Lord Mayor's "basura" Esplanade at the Recoleta is again to the fore. Mr. Arata, the City Chemist, declares there is no danger to public health from this new freak of the Lord Mayor. Buenos Ayres 'vasura' has a thundering bad smell, but is quite harmless as proved by the robust health enjoyed by all the 'vasureros,' a decent lot of poor men, as a rule; and all so wonderfully like each other that you would take them to be all of the same family, or as Paddy from Cork once said, *all twins*.

This is too cruel a joke. Messrs S B Hale and Co. have demanded to be paid in gold for all the new bank notes they are bringing out from New York for the nation. There was a "triste sonrisa" on the Minister's lips as he recognised the justice of Messrs Hale's claim.

Those tiny things called postage stamps, which are light as feathers, and might be blown about by the slightest breeze, make up in the aggregate very considerable bulk and weight, as will be appreciated when it is mentioned that one year's issue in the United Kingdom amounts in weight to no less than 114 tons.—The Royal Mail; its Curiosities and Romance.

The *Capital* of Rosario announces that the navvies at the Uruguay end of the Entre Riano Railway works have struck for higher wages.

They tell a story in America of the Royal Wedding, as if the writer had been all the time behind the scenes. The Queen gave the Princess Beatrice away, although the official programme assigned this duty to the Prince of Wales, who had declined lot or part in the ceremonies, even to be present. As the Queen insited on his "putting in an appearance," he sulkily consented. The Princess tried all her powers of persuasion on H.R.H. at Osborne, and the Queen in vain exerted her authority. The Prince pronounced the match beneath the dignity of the Royal Family, even worse than the Lorne business. If his sister must be given to an "obscure beggar" it should not be with his consent, nor by his act. Edinburgh then came to the rescue, 'with an eye to Mamma's hoarded millions;" but was "promply and effectually snubbed;" for Her Majesty saw that the substitution of the Duke of Edinburgh for the Prince of Wales would "let the cat out of the bag." The "courtiers" were enjoined to spread the report that the change was the crowning mark of the Queen's devotion to Beatrice.

"The divine figure of the North" does not forget his distinguished subjects in this quarter of the globe. His Majesty has just sent to Dr. Bery the Cross of Saint Anne, a distinction much coveted, we believe, by Russian civilians.

"The imports of hides from South America to the United States," says the Philadelphia *Record*, "amounted last year to upward of twenty million dollars. In the same period the value of the country's exports of leather was nearly nine million dollars. For the creation and encouragement of this large trade no steamship subsidy was required, nor was there any need of sending to South America a commission of politicians out of a job to instruct the merchants of New York and Philadelphia as to the best means of securing commerce. The trade is due to mercantile enterprise and to the spirit of commercial freedom."

Judge Arrotea wound up yesterday the 'testamentarias' of late Mr. Silas Atkins, his wife, and their daughter Mercedes. The property to be divided consists of a quinta at Barracas and 18,000 nats. due by the National Government.

The number of little and big boys to be seen now in the cafes, restaurants, billiard saloons and still worse places up to midnight and later is a very sad sign of the times. These youngsters are not content with smoking, playing cards and billiards, and using profane and obscene language, but have now taken to *drinking*, and many of them stagger home thoroughly intoxicated. Most of them are of a respectable class. The police ought to have some power to stop this crying abuse. In Rosario the papers complain of the same thing, and it probably goes on in every big town in the republic.

The alterations in the Politeama have made it the safest theatre in town in case of a blaze, as there are several wide passages for exit.

The Nazaar will case is to be re-opened to see whether the Consejo de Educacion is to get 5 or 10 per cent of the money. The Consejo wastes its money on tawdry and ridiculously costly edifices for public schools.

Young ladies who happen to marry late should bear in mind that if they get a good husband they have done well by waiting, and if they get a bad one it is proof they did not wait long enough. If they never marry at all, they may console themselves with the thought that they have escaped a world of trouble, and that there are always some married women who envy their lot.

Rematarémos a la mas alta postura y dinero de contado, por orden de su propietario.

La magnifica casa-quinta arriba indicada cuyo terreno se compone de 51 vs. de frente a la Calle Flores por 156 vs de fondo y frente a la calle Colon, donde forma esquina con otra calle toda rodeada de reja de fierro con pilares redondos de material.

El edificio construido en cal y azoteas con maderas duras, se compone de:

1° cuerpo con sala, ante-sala, comedor y cuatro grandes piezas con cielo-rasos de yeso, pisos de baldosas, puertas y ventanas de cedro, todo recientemente pintado y empapelado.

Un corredor cubierto con vidrios de colores y otro gran corredor que da frente a la quinta.

2° cuerpo, para servicio, 3 grandes piezas azotea de maderas duras, puertas de cedro, 2 cocheras y una caballeriza para 4 caballos, algibe, pozo con su bomba y pileta, cocina, letrina, cuarto de baño, etc., patio piso de baldosas y piedra.

Una gran quinta con arboles de escogidas frutas, jardin con peluza, arbustos y plantas de adorno, 3 grandes parrales zarzo de fierro, dos de ellos de 70 a 80 vs de largo y otro mas chico.

Vereda con grandes paraisos al frente y el fondo de la propiedad cercado de pared. En fin, es una hermosisima propiedad, que como se ve no deja nada que desear, situada en uno de los parajes mas altos y poblados de Flores y a solo dos cuadras al Sud de la calle Real, cuyo tramway corre hasta las 12 de la noche hasta la ciudad ida y vuelta.

La propiedad esta en perfecto estado, lista para habitarse y no hay sino llevar los muebles

La base de $14,000 m/n que servira para la venta aunque sea con una sola postura, no paga el valor del edificio, quedando el terreno de balde.

Titulos garantidos.

Los interesados pueden visitar la quinta todos los dias y a cualquier hora.

Dysentery, Cholera Fever, Ague Coughs, Colds, &c.

Dr J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates health action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensive.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests too often fatal diseases Diphtheria Fever, Croup, Ague.

CHLORODYNE acts like a charming Diarrhoea, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer Toothache, Meningites, &c.

From Symes & Co., Pharmaceutical Chemist, Medical Hall, Simla, Jan-5th 1880. To J. T. Davenport, Esq., 22, Great Russell Street, Bloomsbury London—"Dear Sir, we embrace this opportunity of congralulating you upon the wide-spread reputation this justly-esteemed medicine, DR COLLIS BROWNE'S CHLORODYNE has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhoea, and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all classes."

CAUTION—None genuine without the words 'Dr J. Collis Browne or the Government Stamp. Overwhelming medical testimony accompanies each bottle.

BORWICK'S BAKING POWDER

Used by thousands for making wholesome Bread, Cakes, Pie-crust, Puddings, &c. Sold in ½ & ¼ lb. packets and 6d. & 1s. boxes, by all Storekeepers and Grocers

Invaluable at the Diggings and in the Bush, also on board Ship, as small loaves of the best Bread or Scones can be made in a few minutes without the aid of Yeast.

Private Ward, during the Zulu war, writes:—"I should just like you to see the real farmhouse bread that I bake! The oven is one dug in the ground, and is just large enough to hold our daily quantum of two loaves. We use flour, water, salt, and BORWICK'S BAKING POWDER. My bread often surprises me, it is so light, and white as snow. Some of our men will insist that I have been in the trade, and nothing I can say will convince them to the contrary."

Gold	38.50 o/o prem.
Cedulas A	101
Cedulas F	80¼
Cedulas G	87½

The chief feature in the gold market is the steady demand for the end of next month, in spite of the general conviction that the premium will fall in October. The arrival of produce in the markets must necessarily weaken gold, not to mention the probabilities of Dr. Pellegrini carrying through his loan negotiation. On the other hand, the political state of affairs in Europe is not reassuring, and the steady purchases of heavy outsiders, who wish to provide against all emergencies, may not only sustain the market, but may have the effect of pushing the premium to higher quotations. The market to-day showed symptoms of stationary firmness.

The produce consignees of the Once and Constitucion are perplexed at the prospects of a falling gold market, and look on those who endeavor to bring down the premium, as the natural enemies of the country. They have economical principles of their own, and they think that no greater misfortune can befall this market than a decline in the premium on gold at the present moment. Wool, they say, has fallen 50 o/o in the last few years, and the sheepfarmers of this Province, to pay their way, must get the apparent benefit of at least a 50 o/o premium on gold. The popular 'consignatario', in fact, starts the axiom that the rise in gold should be equal to the depreciation in produce, that the premium should be at 100 per cent if the value of production falls 50 o/o. It is always well to bear in mind the opinions of produce-men, whether they be right or wrong; they show the feeling in circles outside the Bolsa and import market. The sheep-farmers and producers in general, clamor for more paper money and a higher gold premium, as a crying necessity of the moment to make up for the fall in the value of wool in the European markets. The Plaza Once men think a gold at 30 o/o premium would be a calamity to the Province. To judge by these remarks, the season that is dawning on the will not be a very satisfactory one.

It is interesting to note the position of affairs; the Government, the importer, and the Bolsa bearing the premium, and the sheepfarmer, the estanciero and the 'chacarero' hailing the market. Their interests are diametrically opposed; one party claims for gold and the loan, the other for paper, and nothing but paper. If no extraordinary event takes place in Europe, the gold market will necessarily fall with the accumulation of produce.

Were it not for the steady purchases for the end of October, the gold market would have fallen this morning. The Pellegrini loan is the great bugbear of the market, and the speculation hangs on the success or failure of the negotiation. Over one hundred thousand dollars changed hands for cash and to-morrow at 38.40 and 38¾. Operations for the end of the month embraced 223,000$; the market opened at 38½, fell to 38.20, and closed at 38.40. Operations for the end of October amounted to 265,000$; rates opened at 37½, fell to 37, and closed firm at the opening rate. Five thousand dollars were sold for the 10th prox. at 38. There was a wavering aspect about quotations all morning, but there was a strong under current of firmness in the situation. The market opened weak, hardened slightly and closed pretty firm. About half a million dollars were sold during official hours.

Cedulas continue dull. One hundred thousand G changed hands for cash at 87½ to 87¾. A few thousand A were sold at 101 and F at 80¼. The supply of Series G was larger than usual, but the demand this morning was pretty brisk.

The exchange market ruled weak at 46⅞ to 47d. Nearly all the leading drawers demand 46¾, and business, as a necessary consequence, is at a stand-still. The Hevelius left this port with £51,557 in gold. Shipments of gold must continue so long as the exchange market remains under 47d.

The money market is easy for paper, and rates of discount show no alteration. Gold rules tight as usual. Special gold is quoted at a small premium from ¾ to ⅞ o/o., according to coin. Montevidean exchange continues slightly above par.

In re Hume Bros, *versus* Clark & Co., Judge Sauze has condemned the latter in first instance. This lawsuit is about a payment of $170,849.54, not including interests, which run from June 30th last year up to date.

Mr. Eugene Terrason has applied to the Minister of the Interior for the purchase of one hundred square leagues of land, situated in the Gran Chaco, with a frontage on the Bermejo river from Puerto Expedicion to Fuerte Wilde, and with a depth inland of 41 kilometres. Mr. Terrason offers to pay $1000 m/n per league and to put capital into the enterprise to the amount of $125,000 in a term of two years. The Government will probably grant the concession.

The following is a summary of operations effected this morning at the ring during official hours:—

The steamer Hermes left Liverpool on the 15th ult., called on the 21st ult. at Madeira, and ran aground off Castillos Grandes on the 19th inst. at 1 a.m. On the 13th a boat was lowered with several passengers; she went to pieces on a rock and four men were drowned. Up to the present there are still faint hopes of saving the steamer. The cargo is being gradually taken off and the great bulk will be saved intact. Seven splendid rams went to the bottom, but Mr. Frias's two valuable sires, and eight English bulls were saved. The cargo exceeds two thousand tons, embracing a valuable consignment of threshing and sowing machines, also some locomotives and rolling stock for one of the railways of the Interior. Men are employed day and night in taking out the cargo. All the machines on board are intact and are probably on shore by this time. The loss of the sheep is much to be deplored, as they were fine specimens. Mr. Frias's two sires cost £1,800 in England, and were exhibited in a 'barraca' in the Mount, where they were much admired.

Mr. Bateman's new contract, extending the term of his management of the City Improvement Works, has been finally ratified and the document was signed yesterday in the office of the Home Secretary, by Dr. Paz, Sub-secretary Pinedo, Dr. Chavarria, President of the Board of Public Works, Engineer Nyströmer, representative of Mr. Bateman, and his lawyer, Dr. Cullen. This new contract extends the term of management, in charge of Engineer Bateman, to the 27th May next, say two months longer than contractor Devoto's term. Engineer Bateman, however, enjoys the right to claim the management of the City Improvement Works for another two years, but this extension of his supervision shall not embrace that branch of the works that is limited to the connection of the houses with the sewers and drains; the estimates of this latter part of the works amount to twenty millions and provision is made in the contract that a separate and special document shall be drawn up for their inspection and management. The payments to Mr Bateman will be effected, as we stated in our last issue, in gold and paper, and in strict proportion to the outlay which the Government has to meet in specie or in the forced currency.

Some Montevidean bills were passed to-day at 46⅞ and 47d. Nothing was reported in france; drawers at 4.93, takers at 4.94. Reichsmarks 3.99, small amount passed.

Mr. Carminati has sold his fine house in the Calle Garantias, between Calles General Guido and Larga for 55,000 $m/n. Buyer, Mr. Gonsalez. This fine property measures 50 yards front by 35 deep.

Mr. Bossi has sold his property in the Calle Cangallo in front of the Hotel Provence, measuring 17x50 yards, for 46,000 m/n.

Government bills are very scarce in the market. The Treasury has issued scarcely any for the last three weeks.

The gold market ruled weak during afternoon and the premium fell to 38 o/o, but a slight reaction was felt at five o'clock and the market closed firm at 38.30 buyers for the 30th, and 47.30 buyers for the end of October.

The latest news from La Plata is that the Saladillo railway will be extended to General Alvear. The Board of Provincial Railways will carry out the extension.

We have received the following for publication in this column:—

Buenos Ayres, Sept. 25th, 1885

To the Editors of the *Standard*,

Dear Sir,

I see with pleasure the interest you take in the Immigration Department, and for that reason I should be glad if you can explain to me the following puzzle in the Budget:—

"Desembarco de Immigrantes"

Inspector de desembarcos $135—all right.
Un Sub-Inspector (?) .... 80—all right.
Un Ayudante ..... 52—where is he?
Un Escribiente ..... 42—where is he?
Interprete y traductor... 40!!!
Desembarco de immigrantes..... 1,000!!

Now, as far as I know, there exists neither "Ayudante" nor "Escribiente", but even if really these persons were there, could you explain why an 'Ayudante' should gain 52 m/n and an 'Interprete y traductor' (who is expected to speak and write five different languages, Spanish, English, French, German and Italian) have only a salary of 40 m/n, not enough to pay for his house rent.

Yours truly,
CHS. H. W.

P.S.—I forgot the item of 1,000 m/n per month for the landing of immigrants. If I do not mistake, that service is done by the Custom House employees, and expensive it is.
